

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

ALD

Social register, New York.

CX 000 424 126

In Using the Social Register:

The quickest way to find a name is to look for it first in the Locator, which indicates its exact place, either in your own or one of the twenty other Social Registers.

The name may be in your own Social Register and yet escape your attention, if grouped out of alphabetical order, under the family name.

A subscriber to the Locator may obtain a transcript of the desired entry in any other Social Register by telephoning or writing to the Association.

If the name you are seeking has escaped your memory try to think of the maiden name. Reference to the Married Maidens will then indicate the present name.

Consult Dilatory Domiciles for most recent changes.

Directory notices are issued in December, January, February and April. Each will include its predecessor. Substitute the new and destroy the old, thus necessitating but one reference.

Directory notices December 1917

Ll.	Loyal Legion	Wt.	Society War of 1812
Lm.	Colonial Lords of Manors	Y.	Yale Graduate
Lt.	Lotos	Y.	Yale University Club

The first club following a name indicates where letters may be sent.

Club abbreviations, not included in the above list, refer to Washington, Philadelphia, Chicago, Boston, Providence, St. Louis, Pittsburgh, Cleveland, Cincinnati, Dayton, St. Paul, Minneapolis, San Francisco, Seattle, Portland, Southern California, Baltimore, Buffalo, Detroit, New Orleans, or Southern Cities Clubs, to distinguish which is added respectively the letters *w, p, ch, b, pu, sl, pt, cl, cn, dy, sp, m, sf, st, pr, sc, bl, bf, d, no*, or *so*.

D^{ilatory}_{omciles} And Locater Insure Accuracy

The Social Register of each city is issued in November and its accuracy is maintained with D^{ilatory}_{omciles} in December, January, February and April; and the Summer Social Register, with country and foreign addresses of all the cities combined, is issued in June, with D^{ilatory}_{omciles} in July.

They record the full names and addresses of members of prominent families grouped together, the clubs to which they belong, and the marriage and death of each person as it may occur.

Names of Juniors { M^{iss} 12 to 17 } appear under the names of
 { M^{rs} 14 to 20 } older members of their families.

The Locater *cataloguing in one alphabetical order every name in all the Social Registers with the family's head under which it may be found and the city in which the name appears*, is essential, owing to the many inter-marriages among families in the various cities and constant changes from one city to another. Reference to the **Locater** shows at once under what city to look for any desired name and there all required information may be gleaned.

The names of M^{arried}_{aidens} who have married into families of other cities appear among the M^{arried}_{aidens} of their former city with their present married name and the city of their residence in italics.

The subscription is **\$5.00** per annum for each city.

A subscription of **\$35.00** will include all the issues for New York, Washington, Philadelphia, Chicago, Boston, Providence, St. Louis, Pittsburgh, Cleveland & Cincinnati & Dayton, St. Paul & Minneapolis, San Francisco & Oakland, Seattle & Portland, Southern California, Baltimore, Buffalo, *Detroit (new this year)*, New Orleans, and Southern Cities from Richmond to Atlanta and the Locater.

For **\$7.50** the Locater is included with the year's subscription for any one city.

To insure the finding of a name in the Social Register look for it first in the Locater.

Social Register.
